

VISHAL

9068353258 | vishalyadavvky3@gmail.com | [LinkedIn](#) | [GitHub](#)

OBJECTIVE

Driven and enthusiastic Full Stack Developer with practical experience in designing, developing, and deploying web applications using the MERN stack. Proficient in React.js, Node.js, Express.js, MongoDB, and RESTful APIs, with hands-on experience implementing authentication, payment integration, and AI-powered features. Eager to contribute strong problem-solving skills and a product-focused mindset while growing as a software developer in a collaborative environment.

EDUCATION

Bachelor of Technology — Computer Science & Engineering (Artificial Intelligence)

Mangalmay Group of Institutions and Engineering Technology, Greater Noida | 2023 – 2027 | SGPA: 7.2

SKILLS

Languages: Java, JavaScript (ES6+), Python

Frontend: React.js, HTML5, CSS3, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, CRUD Operations

Databases: MongoDB, MySQL

Data Structures & Algorithms: Problem Solving, Time & Space Complexity Analysis

Concepts: JWT Authentication, Authorization, MVC Architecture, Form Validation, Error Handling

Tools & Deployment: Git, GitHub, VS Code, Postman, Vercel, Render

PROJECTS

AI Nexus — Full Stack AI SaaS Platform | [Live Demo](#) | [GitHub](#)

- Built a full-stack AI SaaS application with a responsive interface and AI-powered features designed for a seamless user experience.
- Implemented secure JWT-based authentication and a credit-based usage model to control access to platform features.
- Integrated Razorpay payment gateway to enable secure credit purchases and support the platform's billing workflow.
- Developed dashboard and analytics functionality with API-driven communication for managing user activity and platform usage.

In Minutes — Multi-Restaurant Food Delivery Platform | [Live Demo](#) | [GitHub](#)

- Built a multi-restaurant food delivery platform enabling customers to discover restaurants, browse menus, and place food orders.
- Developed dedicated Customer, Seller, and Admin workflows for restaurant onboarding, menu management, order handling, and approvals.
- Integrated Razorpay and Cash on Delivery with server-side payment verification to support secure and reliable order processing.
- Implemented Socket.io for real-time updates, Cloudinary for image management, JWT authentication, and an AI-powered customer support chatbot.

WORK EXPERIENCE

Cognifyz IT Solutions Pvt. Ltd. — Summer Internship

Full Stack Development Intern | Jun 2026 – Aug 2026

- Contributed to full-stack development assignments and gained practical exposure to modern web application development.
- Developed responsive application components by working across frontend and backend technologies.
- Worked with REST APIs and database operations to support structured client-server communication.
- Strengthened problem-solving, communication, coordination, and attention-to-detail skills while working on technical assignments.

ACHIEVEMENTS

Startup Idea Hackathon — 3rd Place Winner | Oct 2025

- Secured 3rd Place among 50+ teams by pitching Event Hive, a location-based event discovery platform.

LeetCode — 100+ Problems Solved

- Strengthened data structures, algorithms, problem-solving, and time and space complexity analysis through consistent coding practice.
